## To Confer on Unemployed Women

WASHINGTON—A conference to discuss the problems of unemployed women will be held at the White House April 30. Mrs. Roosevelt, Mrs. Ellen S. Woodward, director of women's work for FERA, directors of women's camps throughout the United States, and Harry L. Hopkins, Federal Relief Administrator, will attend.

The plan calls for establishment of proper housing and camp facilities for unemployed women particularly single women, where they would be given educational and vocational training.
